

Thank you!

We hope you and your class have enjoyed your time with Community Rail Lancashire.

www.downtheline.org.uk

Following your time with us, we would be extremely grateful if you could contribute to our online learning hub.

'Down The Line' is a record of the work that schools have undertaken with Community Rail Lancashire from March 2017. The website serves as an interactive living record of local and rural stations, created by children and young people.

By contributing to this website, your class will gain a greater sense of ownership over their local railway network and be able to show their work to their families and friends. We will also feature your school in our 'schools' section to advertise your commitment to railway safety, heritage and learning, which you can also link to your school's social media pages.

Content

Inputting into the site is simple. Email info@downtheline.org.uk with your children's work and photos and we will feature it, as well as your school, on the site.

Content can be anything you would like to send us, and may include;

- A brief typed outline of your visit with us
- Photographs (if permission is granted)
- Scans or copies of children's work
- Children's writing
- Videos
- Any ongoing railway topic work
- Child or staff feedback and comments

If you require any assistance or have any further questions, please email us at info@downtheline.org.uk, or call us at 01254 386 579.

Thank you!
